

St. Peter's Property Committee Wish List

December 2013

- A. Recoat the parish hall floor.
- B. Need to check if the refrigerator will meet the new Health Dept. specification for keeping things cold. It has changed from 42 degrees F to 40. Our refrigerator is quite old.
- C. Our dishwasher is quite old and most of the parts are obsolete.
- D. Our PC/SERVER Operating System will be in serious need of a replacement as the current one is obsolete as of 3/31/2014.
- E. A review of desktop PC's is needed to determine when replacement will be needed.
- F. Time and effort needs to be expended to bring our computerized inventory current.
- G. A major upgrade of both monitors and cameras for our access control system.
- H. A minor upgrade in our access control system to make it easier for the altar guild to use.
- I. If we want to be truly a refuge in time of a major disaster then a generator is needed. In the \$20K range
- J. Insulation for single pane windows in the Annex.
- K. A review of refrigerants used for the Choir Room, Office Areas and 2nd Floor Parish Hall to determine if more economical to replace now or to replace total when they require replacement gas to effect a repair.
- L. Thru the wall units for the Rector's and Secretary's Offices as the central system does not have the air flow to sufficiently heat or cool during those seasons.
- M. Recoat the wood floor in the nave. Just the open area where the feet and kneelers rest.
- O. Sean would like to have a more advanced copier to handle folding and middle of book stapling.
- P. An access point for the computer network down by the library.
